PACKING, LOAD & DOCUMENTS

PACKING

- PP, non-woven, kraft or carton formats
- Retail and bulk net weights
- Buyer artwork and destination labelling
- Final format confirmed before order

LOAD PLANNING

- Container type and payload estimate
- Product-density and packing assumptions
- Port, route and cut-off coordination
- Final load plan requires confirmation

DOCUMENTS

- Commercial and transport documents
- Origin and phytosanitary scope where applicable
- Inspection or laboratory evidence as agreed
- Current credential copies for verification

SIX CONTROL POINTS

A clear enquiry reduces assumptions and makes offers easier to compare.

01

BUYER BRIEF

Product, destination, specification and quantity.

02

OFFER ALIGNMENT

Availability, packing, Incoterm and evidence scope.

03

APPROVED SPEC

Written tolerances, artwork and inspection plan.

04

ORDER CONTROLS

Contract, payment and document checklist.

05

RELEASE & LOAD

Lot evidence, container plan and dispatch.

06

FINAL FILE

Shipment-specific documents issued as agreed.
